dancing with the elements

Basel

with Christian de Sousa

School of Movement Medicine

ecstatic nature dancing with the elements

This workshop will be a deep dancing journey into the elemental practice at the heart of Movement Medicine. We will explore how we can all use it to awaken our ecstatic nature.

a Movement Medicine Journey with Christian de Sousa

Earth, Fire, Water, Wind.
The elements are the essence of nature and all life is supported by them: plants, animals and even us humans. Dancing with the elements helps us to connect to that life-force and remember that we are part of nature's beautiful and endless movements. Whether we live in the city or the country, moving with the elements brings healing, transformation and inspiration.

Movement Medicine fuses dance with shamanic, therapeutic and artistic practices. Christian has been working with Ya'Acov & Susannah Darling Khan, creators of MM, for nearly 20 years and he was was one of the first 'pathfinder' teachers of the practice. For more information please visit the web-sites below.
